Happy New Year OPA Community,

I hope everyone is off to a good start on 2015! I have nothing particular on my mind today, but there are a number of announcements I wanted to get out, please see below.

Opportunities

Professional Development Opportunities from CTL

We have three great professional development opportunities coming up this quarter. Please encourage your colleagues to attend.

1) Our on campus Winter Symposium will be Wednesday January 28th. The theme is Sustainability (defined in it's broadest sense). We have the most varied agenda so far and are featuring two guest speakers: In the morning: Tina Falkner, a national expert on FERPA will give a workshop called "Sustaining Compliance." At Lunch, Dr. Heather Burns a national expert on "sustainability pedagogy" will present: "The Heart Work of Sustainability Pedagogy"

To review and register for sessions please use this website:
<http://oregonstate.edu/ctl/2015-winter-sustainability-symposium>

2) The due date for applications for our SPRING Professional Learning Community on converting a face-to-face course into a hybrid course has been extended to January 20th The link for the RFP is <http://oregonstate.edu/ctl/grants>.

3) Back by Popular Demand, our Teaching Triads will be starting mid February. This is a fun Professional Learning Community in which faculty learn how to conduct teaching observations and coach excellence in teaching. Stay tuned for more information!

Thank you for all you do for our students and faculty.

Sincerely,

Kay

Kay Sagmiller, Ph.D.
