## Graduate education at OSU

Oregon State University offers an outstanding learning and living environment, with a graduate faculty committed to helping you achieve your academic and career goals.

Oregon State has earned a worldwide reputation for excellence in teaching and research. This includes the Carnegie Foundation's highest designation - the classification reserved for the universities with "very high research activity".

Choose from more than 80 graduate programs in fields including engineering, forestry, oceanography, agriculture, life sciences, liberal arts, health and human sciences, environmental sciences, business and education. Many programs have flexible options to tailor your degree plan to your goals.

Graduate faculty take an active role in guiding your academic program. They are selected for their academic training, experience, scholarly activity and ability to direct and advise graduate students.

Oregon State offers world-class laboratories and other research facilities, along with a modern library containing more than two million volumes and comprehensive special collections in a variety of disciplines.

Our diverse student body includes more than 4,500 graduate students from all 50 states and nearly 100 countries. We encourage applications from people of all backgrounds. Whatever your interests, at Oregon State you will find an array of program options to assist you in the pursuit of your personal and professional goals.

## PAYING FOR GRADUATE SCHOOL

- Over half of students receive funding through a graduate assistantship.
- Graduate assistants, with at least a .30 FTE appointment, receive health insurance benefits and full tuition and mandatory fee coverage.
- Both research and teaching assistantships are available.

For information about scholarship and fellowship programs, contact the graduate coordinator in your program of interest or visit the Graduate School website. U.S. citizens may be eligible for several programs administered through the Office of Financial Aid and Scholarships. These include a variety of loans, deferred tuition and other college assistance.
