Postdoctoral Scholar Position in Fission Physics
Nuclear Chemistry, Physics
Oregon State University, Corvallis OR

Position:
Full-Time 12-month Postdoctoral Scholar position located in Department of Chemistry, Oregon State University. The postdoc will work in Nuclear Chemistry under the mentorship of Dr. Walter Loveland. Research is in fission physics and the synthesis of heavy nuclei using multi-nucleon transfer reactions. Stipend and benefits conform to postdoctoral standards at OSU https://gradschool.oregonstate.edu/postdocs

Qualifications:
Recent Ph.D. degree in nuclear physics or nuclear chemistry and experience in fission physics and/or heavy element reactions.

Position Available: August 1, 2019 with an initial appointment of one year, renewable up to one to two years.

Application:
For full consideration, apply by June 30, 2019. Applicants must send: (1) Cover letter describing academic experience, qualifications and interest in the position; (2) Curriculum Vitae (CV) (3) Publication list; (4) summary of research experience;(5) names and contact information for two references. Application should be sent electronically to lovelanw@onid.orst.edu. Initial review of applications will begin July 1, 2019.
