One Year Post-Doctoral Researcher at Oregon State University-Cascades

Dr. Elizabeth Marino and OSU-Cascades invites applications for a one year post-doctoral fellowship to begin November 1, 2021; as part of a research project funded by the National Science Foundation. The project is examining adaptation possibilities for individuals, neighborhoods, and communities who are faced with repetitive flooding. The ideal candidate would have policy-relevant academic research and teaching interests in the social science of climate change, disasters, and adaptation planning. The ideal candidate would also have experience researching or living in Alaska, the eastern seaboard, the Gulf Coast, Puerto Rico, or another low lying coastal area in the US.

The successful applicant will be based at Oregon State University-Cascades in Bend, Oregon, but applicants who request remote participation (not relocating to Oregon) will be considered.

Salary is $59,000/year for a 12 month contract.

Oregon State University-Cascades is a premier research and teaching institution. Our campus prides itself on small class sizes, interdisciplinary collaborations, a high-quality student body, and our commitment to diversity, equity, and inclusion. Bend is a rapidly growing and dynamic city, located in Central Oregon, which has easy access to outdoor recreation, a walkable downtown, and a burgeoning art and food culture.

Applicants should submit a cover letter, curriculum vitae, a writing sample, and the names and contact information for at least three references to elizabeth.marino@osucascades.edu. Please put Post-Doctoral Fellowship Application in the subject line.

Applications will be reviewed beginning September 30, 2021. The search will remain open until the position is filled. An earned doctorate is required by the start of the appointment, and a background check must be completed prior to employment. OSU-Cascades is an equal education/employment opportunity institution dedicated to building a diverse community. We strongly encourage applications from women, underrepresented minorities, individuals with disabilities, and veterans. OSU-Cascades also strives to promote a healthy work-life balance.
